PRIVATELY PRINTED FOR THE
SHROPSHIRE PARISH REGISTER SOCIETY.
1912.

Note for the Reader.

—1465345

The present volume is the fifth volume of the Registers of the Shropshire portion of the Diocese of St. Asaph, which has been printed by the Shropshire Parish Register Society. It contains the second and third volumes of the voluminous Registers of Oswestry, extending from the year 1669 to 1727 (baptisms and marriages) and to 1750 (burials). The remaining volumes of these Registers to 1812 have been copied, and will in due course be issued to Members of the Society.

For the transcript of the present volume, our thanks are due to Miss Rachel Leighton. The proofs of volume II. have been most carefully collated with the original Register by Archdeacon Thomas, and of volume III. by Miss Auden, and the Index has been prepared by Mr. T. M. Carpendale.

A few words of explanation are necessary, in reference to the Index. In the earlier volumes of this series (excluding Oswestry, volume I.), in the case of Welsh names—it would not be correct to call them surnames—the name appearing after the first "ap" or "verch" was, for indexing purposes, regarded as the surname. This plan has not been adopted in the present volume, but the following will explain the method used in compiling the Index, and will serve as a guide in tracing families. (1) Where there is clearly no surname but a series of Christian names, the name of the individual will always be found indexed under the first Christian name. (2) Where there is clearly a surname, in a Welsh family, the persons will be found indexed under such surname. (3) In some cases it is difficult to tell whether an apparent surname is really a surname or a trade, and in such cases the compiler of the Index has acted on his own judgment in indexing them either under the apparent surname or under the first Christian name.

Sometimes, in the present volume an "ap name" has been indexed twice; thus, such an entry as "Mary, d. of Richard Edwards ap John" has been indexed under the first name "Mary," and also under "Edwards ap John."

The trades and occupations are not indexed in every case in this volume (as was done in volume I.), but only in the "ap names" and in very common surnames. Where they are recorded, the Christian names are not given under the various trades (as in volume I.), but the trade follows the Christian name.

It is necessary to correct an error that appeared in the "Note for the Reader" at the beginning of Oswestry, volume I. It is there stated, in the third paragraph,—"(1) Where there is clearly no surname but a series of Christian names, the name of the individual will be found indexed under the first Christian name." This is not the case; volume I. was not so indexed. The method in which volume I. was indexed, so far as regards "ap names," is as follows:—All ap names are indexed under *the last name only*. Thus, such an entry as "John ap Jeuan ap Gryffyth, bapt." (vol. I., p. 166), will be found indexed under "Gryffyth," and not under John. All *trades* are given in alphabetical order, and the Christian names follow the several trades.

I would ask the reader to peruse Archdeacon Thomas's remarks on Welsh names in the "Note for the Reader" in volume I. They are equally applicable to the present volume. It will be noticed that surnames have become much more general in the present volume, than was the case in the first volume.

The Registers comprised in this volume have not been printed in full, as was the case in volume I., but in an abbreviated form, which can readily be understood, though every salient point has been recorded, and all occurrences, remarkable events, etc., have been given in full.

The following abbreviations have been adopted:—

affi.	—	affidavit.	co.	—	county.	p.	—	parish.

VOLUME II.

Oswestry Registers.

The Introduction to the first volume gave so full an account of the parish of Oswestry, its Church and the Vicars, that to it we must refer our readers.

The *Parish Register Abstract* of 1831 gives the following summary of the Registers down to 1812 :—

OSWESTRY V. (with Aston).

No. I. (several of the early pages illegible) Bap. Bur. Marr., 1558—1609, 1612—1640, 1653—1668.
No. II. Bap., Marr., 1629—1727 ; Bur., 1669—1678.
No. III. Bur. 1678—1750.
Nos. IV., V. Bap. 1727—1779 ; Marr. 1727—1754.
No. VI. Bap. 1780—1812.
Nos. VII., VIII. Bur. 1751—1812.
Nos. IX.—XII. Marr. 1755—1812. Also Bap., Bur. (for the House of Industry) 1783—1789.

The present Volume comprises the Registers Nos. II. and III. in the foregoing summary.

This second volume covers the period from 1629 to 1678, and comprises the latter part of the first, the whole of the second, and a portion of the third volume of the MS. Registers. Incidental notes throw light on its story. The transcriber's comment (page 541) on the beauty of the handwriting down to April, 1639, shows that the earlier Registers of Sir Hugh Gough and Sir William Muckleston must have been transcribed by the same hand. In that year Vicar Wynne took charge of it "curam suscepi Registrarii librum hunc"; but in 1640 he appears to have been ousted, as there follows a long gap from July 28th of that year till December, 1653, though there are a few entries copied from family memoranda for the interval, notably twelve of the family of Evance, ranging from 1646 to 1661. After July 27th, there is an insertion of "10 parchment leaves and one paper leaf, all of small size" (page 563) out of their proper order ; but the entries are fairly full down to April 10th, 1656, and from that date they are mostly made up of family records down to August, 1662. Meanwhile there was another "Register Booke for the Towne and Parish of Oswaldstree made in the yeare of our Lord one thousand six hundred fiftie and six," and this the proper Register was continued down to the Restoration. In 1658 we are told that "Richard Parry receued this Booke into his custody from Mrs. Kinaston upon the 10th day of March, 1658 (p. 594). This explains the sixteen consecutive entries "in a later hand," on page 544, of members of the family of Thomas Kynaston, mercer. In 1661 a new book was provided, a "True and Perfect Register of all . . . . Marriadges and burials within the Parish of Oswestry . . . 24th of January 1661" (p. 597). With so many vicissitudes it is a matter of much congratulation that the Registers were not altogether lost, as was so often the case during the Commonwealth. How interesting it would be if the lost Registers of Gough and Muckleston should some day be discovered.

The more notable Memoranda have already been mentioned in the Introduction to Vol. I., it only remains to add here one or two specimens of Commonwealth marriages ; e.g. "Thomas Evance of the Parish of Kinnerley & Margret Williams of the same were published three markett dayes in Oswestry markett, beginning the 4th day and had their Certificate the 18th day and weare married the 19th day" (of September, 1654).

April 1656. "John Scudamore son and heir apparante of John Scudamore of Kenchurch in the Countie of Hereford Esq. & Mary the daughter of Andrew Lloyd of Aston in the Countie of Sallop Esq'e, being three times published in the parish church of Oswestry that is to say the 24th of Feb., 1655, the 2nd of March and the 9th of March, 1655, weare married the 10th day of April 1656 at Aston aforesaid before mee. Ro. Cliue or Clive."

In 1635 we read that "John Evan was executed the 23th daye" of March, and in 1657 that "Thomas Bellinger that killed Thomas Hunt was hanged at Denbigh the 14th day" of Aprill; but nothing is said of their burial.

Of nicknames we have the entries: The wife of Cochcarabas buried the 10th day (of August, 1638), and "a chiid of Cunstable Coch buried the 19th day" of Aprill 1659. Were they the same Coch? The principal families during this period were the Lloyds of Llanforda, of Aston, and of Llwynymaen, Blodwell of Llwyn (Llwynymapsis), Kynastons of Morton, Kyffin of Sweeney, and Evance of Cricceth.

The third volume contains entries of Burials from August, 1678, to April, 1750. It has 139 parchment leaves, 12¾ inches long and 8 inches broad, bound in paper boards with a leather back, and it was apparently bound in the 18th century. The Register contains largely burials in woollen, and the words "had a certificate," or "certificate had," are added to each entry until the beginning of the eighteenth century; and then for some time the words "and had noe certificate" or "no certificate," which only occasionally occur before that time, take their place.

The entries are interesting as giving the calling and the place of abode of most of the persons mentioned. In the case of young children, the word *child* is used instead of *son* or *daughter*, which is reserved for older young people.

Several burials are given as at Morton and at Aston, and a few in distant parishes. The registers seem to have been kept by the clerk and not by the vicar. In some instances his knowledge of English was rather defective, especially as regards the possessive case.

The volume contains entries of the Browne family of Sweeney, of the Williamses of Llangedwyn, the Lloyds of Llanvorda, and of several others of note connected with the neighbourhood. It mentions several "Chief school masters," including in 1705, "Thomas Jones, Vicar and chief schoolmaster." Several school mistresses, apparently of the Dame-school type, are mentioned, and two or three "writing masters." Rowland Nevitt, the first minister of the Old Chapel, who is described as "of Weston Cotton, clerk," is mentioned; and his successor James Owen is also mentioned, when his second wife, Jane, was buried in the churchyard in 1699. The volume furnishes a very complete list of the occupations of the inhabitants of a country town and its neighbourhood, varying from an attorney-at-law and a doctor of physic to a blind fiddler and a ballad singer. There are a large number of colliers, and there are one or two records of accidents at the pits (e.g. Aug. 15, 1671).

There is a mention in 1671 that "Sara Kynaston, widow, of Cross St., was buried in Nathaniel Edwards' Croft without Beatrice Gate.

Mention occurs of soldiers at the beginning of the 18th century.

There are traces of considerable connection with Ireland, several families apparently having relations there.

It only remains to add that the two volumes of Registers contained in this Volume were transcribed for Miss Rachel Leighton, who has kindly presented the transcripts to the Society; that the second volume was collated, and the proof-sheets compared with the original Register as they passed through the press by the Venerable Archdeacon Thomas; and that the third volume was collated and seen through the press by Miss H. M. Auden.
